

# TEKNIK INFORMATIKA

**"We are changing the world  
with technology"**  
- Bill Gates

## Bidang Keahlian

Graphics & Multimedia Design

Software Engineering

Network Engineering

# TEKNIK INFORMATIKA

Information Technology  
Program Sarjana (S1)

### Pilihan Karir

Web Master | Software & Database Engineer |  
Vulnerability Assesment Analyst | Data Scientist |  
Network & Security Engineer | Technopreneur |  
Mobile, Game, E-Commerce Developer |  
Network Penetration Tester

### Final Assignment (Project based)

To complete this degree, the final assignment would be project-based, allowing to you to engage with your learning in more concrete ways. A hands-on project will let you apply what you've learned to an in-depth exploration of a topic, making sure your assessment is meaningful and effective.

### Mata Kuliah Unggulan

(\* mata kuliah rekomendasi)

Application Software Engineering\*  
Mobile Programming  
Server Technology  
Network & Security Management\*  
3D Modeling\*  
Adobe Learning  
Computer Graphics  
Digital Video Processing\*

Jumlah SKS  
**144**

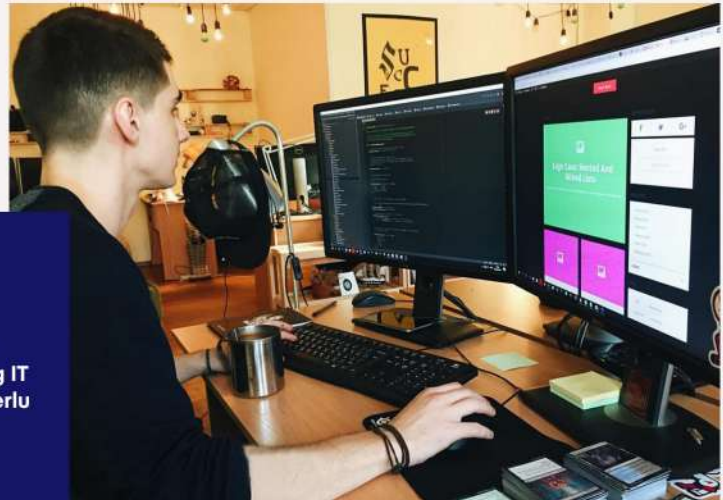

Gelar Akademik  
**S.Kom**

Masa Studi  
**4 Tahun**

### Penguasaan Software

Unity, Android Studio, Visual Studio  
VMware, Maya, 3DS Max, Adobe Illustrator

**In Partnership with:**

Bekerjasama dengan Universitas unggulan di Australia pada bidang IT (Information Technology) tanpa perlu melalui program fondasi/ foundation year

### Fasilitas Khusus

Pembelajaran dilengkapi dengan ruangan teori, ruangan praktik dan lab khusus, menggunakan software yang memberikan nilai tambah bagi mahasiswa/i dan membantu kelak dalam jenjang karir
